### Determination.

Without determination little or nothing can be achieved in this life. The man who offers the prayer, "Give us this day, our daily bread," means that God will help him in his efforts to get bread. It would be folly to ask the Lord for bread without making some effort to get it. To reach success in anything in life, we must persevere, push forward and onward. If a man decides to be a lawyer, doctor, preacher or farmer he must keep at it, DAY IN AND DAY OUT. All day long—never holding up. Laymen once asked his pastor, "What do you preachers do between Sundays?" He thought, "course, like a lot of people do, I think that all the preacher has to do is to get up in the pulpit Sunday morning and 'Just let roll.'" In a case like that, if he had nothing before he began, the people would have nothing when he finished his so-called sermon. It is the time between the Sundays that makes the sermon count. The preacher must determine to know about the subject he is to preach on Sunday, and then constantly on his knees, he must seek for the leading spirit of the Lord to give success.

The school teacher who just teaches a lesson and then to make a little money to spend on herself or herself will never make a success as a teacher. To succeed as a teacher one must be better than a business. So with one who desires to be a teacher, the must study; what to buy, and when to buy, what profit he can afford to live on, etc.

The man who intends to make a farmer must keep at it the year round. In the winter he must be doing something that will make spring and summer work lighter. He must study when to plow deep and when to plow shallow, and what kinds of fertilizers to use on different kinds of soil. He must determine to keep at it all the time—so with any occupation calling for profession in life. Whatever kind of life one chooses he must stick to it, with the determination to succeed with God's help.

### KEEP KICKING

Have you heard the story of the frog? A man who kept a frog went down to the pond after night to put water in the milk. As it was dark, in dipping up the water he dipped up two frogs and put them in the milk with the water. The frogs swam around for a while, then one of them said, "Well, we can't get out, so I am just going to sink to the bottom and die." The other said, "I intend to keep kicking." When morning came one frog was at the bottom dead—the other was sitting upon a ball of butter he had churned by kicking. So you

Governor of Georgia uses Sloan's Liniment for Hog Cholera.

"I heard Gov. Brown (who is quite a farmer) say that he had never lost a hog from cholera and that his remedy always was a tablespoonful of Sloan's Liniment in a gallon of slops, decreasing the dose as the animal improved. Last month Gov. Brown and myself were at the Agricultural College building and in the discussion of the ravages of the disease, Gov. Brown gave the remedy named as 'unfailing'."

### Quotations.

There's a divinity that shapes our ends, rough-hew them how we will.—Shakespeare.

I saw a man sitting on top of a railroad box car and his feet were dragging the ground—Loggellow.

The Columbia State and The Anderson Daily Mail have made announcements that they will publish no more whiskey advertisements. The Greenville Daily Piedmont publishes no whiskey advertisements, making three of South Carolina's best daily papers which refuse to send whiskey advertisements into the homes of their subscribers. The Pickens Sentinel and the Easley Progress are the Pickens county papers which do not print whiskey ads.

Put off until to-morrow the worrying you might do to-day.

## Our Inquisitive Pup

HE WONDERED WHAT IT IS—THEN SUDDENLY FINDS OUT.

The Greenville Piedmont says a merry-go-round without an organ and a whistle is a "sorry-go-round."

The Atlanta Journal says that "Wilson upsets precedents, but nobody so far has succeeded in upsetting the president."

There is a merchant in Easley overstocked with soap. He was evidently not acquainted with the town when he bought it.

An Anderson county man lost his mind because he loved two girls at the same time. Deduction: Do not love two girls at the same time.

From papers we learn that Ty Cobb of base ball fame, got mad at a 17-year old Wofford college student and beat him up considerably. It is a pity that the world's best ball player should also be a ruffian.

We suppose most of our correspondents are very busy these days, but we would be very glad to have them send us at least a short news letter from each section. Does any one write for The Sentinel from your section?

Our Pleasant Grove correspondent wants to know if we would like to have a setting of eggs from that 24-year-old hen. We would like to have a setting if the chickens will be the same age when hatched as ordinary chickens.

Somebody is evidently sore at something. Instead of calling this the "land of the free and the home of the brave," some one who evidently lives in hotels calls it the "land of the fee and the home of the crave;" while another who is being prosecuted says, "the land of the spree and the home of the knave." But we'll still stick to the old version.

While engaged in catching a base ball at the Easley mill park Saturday afternoon last, Mr. Gary Hiott of the Pickens Sentinel, was accidentally struck in one of his eyes with the ball and quite painfully injured. We have always thought it dangerous for a newspaper man to play ball—Easley Progress.

We have some good evidence that you thought right.

#### Silos and Silage

By R. H. Mason

The dairymen and feeders of beef cattle in this state are realizing more and more the economical value of silage as a food. If you keep dairy cows or beef cattle and have not a silo, then you should make an effort to build one this season so that it can be filled in the fall for winter feeding. No person having as many as ten cows can afford to be without a silo.

What is a silo? A silo is a tank or pit, preferably round, with airtight walls, in which green and succulent feed can be preserved in a slightly fermented condition for future use. Silage is one of the best and most economical bulky or rough feeds for cattle. A number of the dairymen are now paying \$10.00 a ton for cotton seed hulls when they might have produced silage at \$1.50 to \$3.50 a ton. This includes the entire expenditures for the crop from the time you begin cultivating the land until the silage is stored in the silo. The cost of silage depends largely upon the amount of corn or sorghum that you can grow to the acre. Some people in this state have produced as much as nine tons of silage to the acre, while others have not made over three tons to the acre. Three tons to the acre, however, is an exceptionally low production. Experiments have shown that by the use of silage dairymen have gotten one-third more milk at one-third less cost than where hulls were used. We are prepared to give you personal assistance in the construction of a silo, as well as advise regarding the growing, cutting and feeding of a crop for silage. A silo can be put up with your own farm labor. If you begin work on a silo this spring, or early in the summer, personal assistance can be given to more people than if you wait until August or September. A bulletin on "Silos and Silage" will be ready for distribution at an early date. For further information along this line, Address the Animal Husbandry and Dairy Division, Clemson Agricultural College, S. C.

#### Pains In the Stomach.

If you continually complain of pains in the stomach, and your liver or kidneys are out of order. Neglect may lead to dropsy, kidney trouble, diabetes or Bright's disease. Thousands recommend Electric Bitters as the very best stomach and kidney medicine made. T. H. Alston, of Raleigh, N. #### Ignoring Father.

A school teacher recently received the following note from the mother of one of her pupils.

"Dear Mis, You write me about whipping Sammy. I give you permission to beat him any time he won't learn his lesson. He is just like his father and you have to beat him with a club to learn him anything. Pound noddie into him. Don't pay no attention to what his father says. I will handel him."—Cincinnati Enquirer.

## Make Us Prove It

We dare not exaggerate to you. We are dependent upon your patronage. To get it we must have your trust and confidence. We make the following statements with a full understanding of what they mean to us. You are safe when you believe in these statements.

#### For the Bowels

If you only knew as much as we and those who have used them know about Rexall Orderlies, you would be as enthusiastic about recommending them as we are. They taste just like candy. They act so easily and so pleasantly that the taking of them is a pleasure.

Even children like Rexall Orderlies; and you know that if a medicine appeals to a child, it will appeal to grown-ups.

#### Rexall Orderlies

help chase gloom, dispel blues and make you feel happy by their splendid tonic, cleansing and strengthening effect upon the bowels.—They act to free the system—and keep it free—from the distress and ill feeling that naturally results from irregular and inactive bowels.

Rexall Orderlies do this quietly, without griping or causing nausea, purging or excessive looseness. They act to overcome and remove the cause.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all druggists. You can buy Rexall Orderlies only at The Rexall Stores.

#### Oconee Follows our Example.

Seneca Farm and Factory.

The board of county commissioners have purchased a gasoline traction engine which will be used on the roads of Oconee county. It is one of the largest sizes manufactured and similar ones are used in several progressive counties in the state. Pickens county purchased one of these machines last year and the road workers there have used it to great advantage. The engine has been delivered to the county board and will be put in use immediately.

## Saving Time

YOU can buy clothes in two ways. One way is to choose the cloth from a piece of goods and have your measure taken, by somebody who may or may not know how; and wait ten days to three weeks to get them. You can't tell how becoming they will be; you take a chance on the fit, you don't know whether they will be well made or not.

The other way is to buy ready-made clothes. You choose the finished garment, the styles are produced by the best designers in the world, you know in a few minutes if the clothes fit. You know when you see our mark in them, that they're all wool, and finely tailored.

You can do it all in less than an hour, and wear the clothes home.

### How to Get Your Railway Fare Refunded

Secure from any of the above firms a Chamber of Commerce Rebate Book. Have purchases entered in the book and as soon as they total the desired amount, surrender the book to the firm from which you made your last purchase. They will refund your railway fare. This is an improvement on the former plan by which it was necessary for the purchaser to surrender the book direct to the Secretary of the Chamber of Commerce. The merchant himself will redeem it now.
